

# Aemie Hitesh Jariwala

Being a machine learning enthusiast, I believe in bringing a connection between user interface and machine learning. Along with machine learning, my interest widens to the field of decentralization and currently a block-chain developer in making. My objective is to work in a professional environment and utilise my skills for the betterment of the company.

## EDUCATION

### Bachelor of Technology

Sardar Vallabhai National Institute of Technology

07/2018 – Present

CGPA : 9.06

### High School CBSE

The Millennium School, Dubai

03/2012 – 03/2018

Boards : 95.4%

### High School CBSE

The Millennium School, Dubai

03/2012 – 03/2018

Boards : 10 CGPA

## PERSONAL PROJECTS

### Pixel Sorting & Audio Visualiser Creation

- Project comprises the use of a pixel sorting algorithm using HSV Colour Sorting and the creation of Audio Visualiser with various python libraries.

### Photoshop Filter Replication

- 3D Retro Effect, Sketch Effect and Negative Effect were implemented for pictures and can be completely operated on the terminal itself.

### Web Design Using Django Back-end

- The project was focused on learning Django as the back-end framework. All databases were managed using MySQL.

## EXPERIENCE
